**CANTIGA BASSES**

The core made of a very new material with new characteristics, gives cantaiga basses new quality of sound, new harmonics spectrum. Touch, feeling, are new playing sensations. Savarez exclusivity.

**CORUM BASSES**

The only strings particularly flexible offering outstanding nuances and colours of sounds, fast and precise response like a stiffer string rich overtones. Authorise infinity of nuances and colours and remain clear on very high positions.

**HT CLASSIC BASSES**

Stiffer string wound on nylon; they offer consistant resistance under fingers for a fast response and an easy control. Brilliant and powerful sound.

**ALLIANCE - NEW CRISTAL Mix**

Combination of the advantages of E1 and B2 NEW CRYSTAL plain nylon strings and with G3 ALLIANCE «carbon».

**TRADITIONAL SETS**

Rectified nylon trebles with traditional basses.

**UKULELE SETS**

ALLIANCE Fluoro Carbon strings

Advantages of composite:
- More projection and reactivity
- Large spectrum of harmonic
- More expressivity and power.

**Flamenco Tomatito**

Trebles are a combination of NEW CRYSTAL clear nylon (E1, B) and G3 ALLIANCE.

Basses: silver plated wound on a specific multifilament core designed by Tomatito himself.
