

## • SETS WITH POLISHED CANTIGA BASSES •

The use of reinforced pure silver, the new exclusive core of the CANTIGA basses, the advanced technologies and sophisticated surface processing machines all together concur in bringing the string characteristics (tone quality, power, projection, ease of playing) to the highest level ever reached, generally reserved to the round wound strings.

They are ideal for recordings and amplified performances on stage, and they will allure all the players who are looking for a pure sound free of left hand noises.

• CREATION CANTIGA SETS •

SAVAREZ has created the so demanded set combining the advantages of nylon for the E.1 and B.2 treble strings and of Alliance composite for the G.3 string.

Musicians widely requested this combination, which ensures a perfect homogeneity and transition between the strings, and a clear sound with a generous tone...

The CREATION CANTIGA set is available in standard and high tensions.
