### Flamenco

**Trebles** are a combination of NEW CRISTAL clear nylon (E,1, B) and G.3 ALLIANCE.

Basses: silver plated wound on a specific multifilament core designed by Tomatito himself.

### UKULELE SETS

**150R**

**140R**

**ALLIANCE Fluoro Carbon strings**

Advantages of composite:
- More projection and reactivity, large spectrum of harmonic, more expressivity and power.

**Made in France**

SAVAREZ MANDOLIN NAIL KIT

Strings for 7-STRING TO 13-STRINGS GUITARS
7 strings are available for the convenience of every guitarist.

Theoretical tuning: N°7=D, N°8=C, N°9=B, etc.
The string can be tuned differently according to the tension required. For example, the string n°8 may be used on the 7th position.

PLASTIC WOUND TREBLE STRINGS
The 3 treble strings are also available in plastic wound on nylon multifilament. They offer a quality of sound and play very different, which makes an excellent choice for musicians looking for a different style.
Following strings are included in sets:
- 520P1: E1 (511R), B2 (528R) and G3 (529R) plastic wound
- 520P: E1 rectified nylon, B2 (528R) and G3 (529R) plastic wound
- 520P3: E1 and B2 rectified nylon, G3 (529R) plastic wound

Microfiber care cloth

Highest microfiber quality

MF01SAV

Band of self-adhesive silk and special resin allowing easy spreading and impregnation, and quick drying.
1 layer of silk : repair
2 layers of silk : natural nail
3 layers of silk : reinforced nail.
The very special resin, a SAVAREZ exclusivity, is organically compatible.

Absorbs very effectively the dust. Designed to respect the finest varnishes without any chemical impregnation. Highest quality material with overedge seam finish. Long lasting. Very resistant - 30° washable.

Savarez customises your microfiber adding your logo.
